Experience

Full-stack web developer (MERN) stack

MRSoft International Nig. Ltd.

Jan 2022 - Present (2 years 1 month)

Meeting with the development team to discuss user interface ideas and applications.

Reviewing application requirements and interface designs.

Identifying web-based user interactions.

Developing and implementing highly responsive user interface components using react concepts.

Writing application interface codes using JavaScript following react.js workflows.

Troubleshooting interface software and debugging application codes.

Developing and implementing front-end architecture to support user interface concepts.

Monitoring and improving front-end performance.

Documenting application changes and developing updates.

Freelance Software Developer
Sep 2018 - Apr 2022 (3 years 8 months)
As a freelancer I have worked on projects using a couple of web development tools such as HTML5, CSS, Bootstrap, Sass, Javascript, Reactjs, PHP, Ruby, Ruby on rails, etc.

Frontend Engineer
Port Harcourt Agents
Dec 2019 - Nov 2021 (2 years)
A property company in the heart of Rivers State, Nigeria that solves the problem associated with getting a house for rent or purchase

Tech: HTML5, Bootstrap, Javascript, ReactJs, AngularJs, and Docker

I designed and built the front end from the ground up, using ReactJs and Redux, HTML5, Bootstrap

I consumed and contributed to a RESTful API built with NodeJs and its associated dependencies and containerized it with Docker.

I wrote unit and integration tests using jest.

I followed the agile methodology and followed every industry standard.

Intern
Andela
Jun 2020 - Aug 2021 (1 year 3 months)
I Learned JavaScript, AngularJs, PWA, Web accessibility, and CSS3. During the internship, I collaborated with senior developers working on projects.

Interns
HNG Internship
May 2020 - Aug 2020 (4 months)
This is a 100% remote internship program, I made use of collaborative tools like git and github, slack, zoom and google meet collaborating with fellow interns around I implemented a lot of designs from professional UI, UX designer under the world-class project manager that reviewed my implementations to make sure they meet the required standard.

Web Developer
AspireLabs!
Jan 2018 - Aug 2018 (8 months)

Built and maintained the company web site
Built clients web sites and maintained them

Web Developer
SalesBay
Nov 2017 - Aug 2018 (10 months)
Built the backend of the business website with PHP

Intern
RAD5 Tech Hub
Mar 2017 - Aug 2018 (1 year 6 months)
I Learned and implemented the concept of OOP, modern web development, Php, and JS

Education

Microverse
Computer Software Engineering
Sep 2020 - Sep 2021
• 1190+ hours of mastering data structures and algorithms while honing my skills as a full-stack
software developer (Rails | Ruby on Rails | React | Redux).
• Design and Rebuilt UI/UX projects using [SASS] | [CSS3] [HTML5] | [BOOTSTRAP].
• Develop Fully-fledged web-based apps using Ruby, Ruby on Rails, JavaScript, React, Redux, and
more, keeping in mind software security.
• Immersive training in remote pair programming by collaborating with software developers across
the globe. Also, daily stand-up meetings ensured proper communication skills (both descriptive and
technical).
• Adopt excellent coding practices. This entailed: - getting acquainted with industry-standard git
workflows, software developer life cycle (agile, waterfall), and the embracing of code linting/automation
tools ensured code quality and integrity.

Akanu Ibiam Federal Polytechnic
Computer Science
• Conducted a free and fair election
• Worked with a group of other members to achieve success in election processes
